

## AR DB Wood Passive

Risk Profile: Medium

Date: 31 Mar 2026

### PORTFOLIO OBJECTIVES

The medium risk portfolio aims to achieve long term capital growth over a rolling five-year time horizon. Its main objective is to achieve this on a sustainable basis whilst protecting capital. The portfolio is invested in funds, both active and passive, with underlying investments diversified across all major asset classes: equities, fixed income, absolute return and property. Risk is controlled through fund selection and asset allocation and the portfolio is rebalanced quarterly to minimise portfolio drift.

Basis of return: total gross return net of annual management charges, bid to bid basis. The figures do not include any initial charge. You should be aware: pension and life fund performance differs from unit trust/OEIC performance, due to the underlying tax treatment. Past performance is not a reliable indicator of future returns. The value of any investment can go up and down, and investors may get back less than they invested. A small portion of the portfolios may be invested in illiquid assets, meaning you may not be able to buy or sell units in those assets during uncertain times.
